

Dekloc™ Maintenance+ Wash – Technical Data Sheet (TDS)

Issued by: Nautilus Innovation

Date: 25 July 2025

Product Description

Dekloc™ Maintenance+ Wash is a concentrated alkaline powder cleaner formulated for periodic cleaning of exterior timber surfaces. It is effective in removing organic residue, light oxidation, and greasy deposits from exposed wooden decks and cladding.

Key Features

- Powder format for economical transport and long shelf life
- Effective against common stains and biological growth
- Water-soluble and easy to rinse
- Used as part of the Dekloc™ timber maintenance system

Application Instructions

1. Dilute 1 kg powder in 8–10L warm water.
2. Apply solution with a soft mop or brush.
3. Allow 5–10 minutes dwell time.
4. Light scrubbing may be used for stubborn stains.
5. Rinse thoroughly with clean water.

Coverage

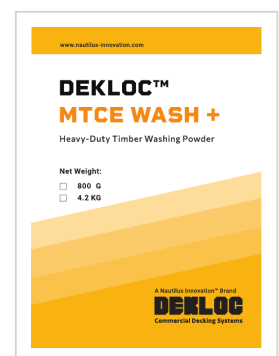

Approx. 10–15 m² per diluted kg depending on surface condition.

Storage

Store sealed in dry, ventilated area. Avoid moisture exposure. Shelf life: 12 months.

Packaging

Supplied in 1kg, 2kg, and 4.2kg buckets.

Timber Brightener – Technical Data Sheet (TDS)

Issued by: Nautilus Innovation

Date: 25 July 2025

Product Description

Timber Brightener is a mild acidic solution formulated to restore timber's natural colour tone after alkaline washing. It neutralizes residual salts, reduces patchiness, and brightens the surface for a cleaner aesthetic finish.

Key Features

- Ready-to-use liquid solution
- Neutralizes alkaline residues
- Helps restore timber brightness post-cleaning
- Safe for use on most softwoods and hardwoods

Application Instructions

1. Use after cleaning with Dekloc™ Maintenance+ Wash.
2. Apply evenly using soft brush or mop.
3. Allow 5–10 minutes reaction time.
4. Rinse thoroughly with clean water.
5. Allow to dry before applying coatings or further treatments.

Coverage

Approx. 8–12 m² per litre.

Storage

Store in original sealed containers away from direct sunlight. Shelf life: 12 months.

Packaging

Supplied in 1L and 5L containers.
